

PLACEMENT SERIES DAY-7

Answer:

1. Rs.50

2.

```
#include <stdio.h>
#include <string.h>
void reverseWords(char *sentence) {
    int start = 0;
    for (int i = 0; i <= strlen(sentence); i++) {
        if (sentence[i] == ' ' || sentence[i] == '\0') {
            for (int j = i - 1; j >= start; j--) {
                printf("%c", sentence[j]);
            }
            if (sentence[i] == ' ') {
                printf(" ");
            }
            start = i + 1;
        }
    }
}
```

```
int main() {
    char sentence[] = "jack and jill went up a hill";
    reverseWords(sentence);
    return 0;
}
```

3. Only ii follows

4. Iii

5. 8
